

Water Strider

The best kickboat raft

Water Strider™ Raft Kickboats are tough, compact, ultra-packable inflatable rafts for fishing, hunting and white-water.

Water Strider's open floor design lets you sit on the air ride seat to propel and steer the **Water Strider** raft with fins on your feet while you keep both hands free for casting and landing fish.

Makes a good hunting boat too. Carry loads both behind and in front of you.

INCEPT inflatable **Water Striders®** pack into light, compact airline baggage including oars, backrest, stripping apron and pump – with room in the carry bag for fins, waders and more.

Water Strider includes:

- Air Ride Seat with backrest
- Equipment straps
- Oar Locks and 3-piece oars
- Stripping Apron
- Foot rest
- Foot Pump
- 80L Drybag / Carry Bag
- Repair kit

Accessories

- Over-the-boot Fins

Colour options

Grey, Red.

Outlaw Renegade

Boat shown with additional side pockets.

Frameless convenience...

The new Outlaw will shock you with its superior handling characteristics. It simply slides across the water effortlessly making the eddy lines, technical whitewater and big white caps a snap. Its low profile handles the wind better than any other pontoon craft. In short it just does everything right and does it simply and cleanly with no hassles.

The Outlaw Renegade is the 2.7m frameless cat, completely self contained. Inflate, attach oars, snap on seat, bags and footrest – and launch. Plenty of capacity for one person and gear.

If you want a boat that tracks well and is more suitable for lakes and rivers with long calm stretches rather than whitewater, then Renegade is the one for you!

The Renegade includes

- 2-part oars
- Foot bar
- Seat with backrest
- Carry bag
- Foot pump
- Repair Kit

The Great Outdoors**

"Rivers made runnable..."

Outlaw X5

New generation Catarafts

Outlaw X5 is a new dimension in oar-framed cataraft design mastered by INCEPT Marine. This tougher than ever before construction enables negotiation of whitewater up to grade 4 difficulty with the extra rigidity given by the horse-shoe shape of the tube.

The smallest of the Outlaw Oar Rigs, the X5 feels better on smaller rivers where extra maneuverability is needed. **Outlaw X5 Deluxe** fitted with original standing Platform and Lean Bar makes the perfect fishing craft. These accessories enable the fisherman to cast the line while safely standing with the lean bar attached to the platform.

Outlaw X5 includes

- X5 Oar Frame Set complete with seat, oar locks and cargo tray
- One pair of 2-part oars 8ft
- Cam straps
- Oar Tethers
- Foot pump
- Repair kit

Tube Colours red / grey, blue / grey, yellow / grey.
Frames Colours dark blue.

Outlaw & Cataraft Accessories

- Oar Frame X5
- Oar Frame X6
- Passenger Frame X7
- Padded Seat
- Cargo Tray
- Standing Platform
- Lean Bar
- Two part 8ft oars for big "Cats"
- Three part 5ft oars for Waterstrider and Renegade

For complete offer of accessories see www.incept.co.nz

Outlaw Avenger

Fishing safer and more fun than ever before

Extremely stable with surprising rigidity thanks to 12ft x 19in tube, these state of the art "Cats" punch holes with ease and negotiate technical rapids as no other craft on the planet.

Avenger glides on water silently and does not spook the fish, so you can almost scoop them with your hand. When fitted with original Standing Platform and Lean Bar the Avenger makes the ultimate fly fishing pontoon.

Outlaw Avenger is also available in a double version with Passenger X7 frame with seat as **Avenger Double XX**.

Outlaw Avenger includes

- X6 Oar Frame Set complete with seat, oar locks and cargo tray
- One pair of 2-part oars 8ft
- Cam straps
- Oar Tethers
- Foot pump
- Repair kit

Avenger DeLuxe also includes

- Standing Platform
- Lean Bar

Accessories

For complete offer of accessories see INCEPT website

W36 Drifter

Oar rig and white water raft in one

The **W36 Drifter** is the ultimate choice when it comes to versatility.

W36 Drifter comes with removable thwarts (cross tubes) so it can be fitted with the X6 oar frame for one person or additionally with X7 front passenger frame with original Standing Platform and Lean Bar so the front person can stand up safely in the raft while casting the line.

W36 Drifter can be safely navigated in whitewater up to Gr.3 as an oar rig with 1-2 persons or by a party of four with gear up to total weight of 400kg!

Catarafts

The most stable crafts ever

Capable of big White Water these crafts are fast, track well and glide quietly on the surface leaving almost no mark on the water. With the centre of gravity between the tubes the catarafts provide the ideal platform for fly fishing.

This is why INCEPT adopted the idea and decided to exploit it further as an ideal fishing craft.

INCEPT has options of four sizes of **standard cataraft** tubes: 9 ft Madison River, 10 ft Skykomish River, 11 ft North West Express and 13 ft Mc Kenzie Drifter.
